ACCESS EASEMENT
(Storm Sewer)

THIS EASEMENT is made this ____ day of _____, 2022, by the Southeast Cass Water Resource District, a North Dakota political subdivision, with a post office address of 1201 Main Avenue West, West Fargo, North Dakota 58078-1301 (the "District"); and the City of Fargo, a North Dakota municipal corporation, with a post office address of 225 - 4th Street North, Fargo, North Dakota 58102 (the "City").

RECITALS

A. The District owns, operates, and maintains Cass County Drain No. 40 ("Drain 40"), a legal assessment drain; portions of Drain 40 are located within the City's municipal boundaries.

B. The City wishes to construct, operate, and maintain a lift station and stormwater outfall that will discharge into Drain 40, and related storm sewer infrastructure (collectively, the "Storm Sewer Infrastructure"), on property owned or controlled by the District.

C. The District has agreed to convey an easement to the City for purposes of the construction, operation, and maintenance of the Storm Sewer Infrastructure, subject to the terms and conditions contained in this Easement.

In consideration of the mutual covenants contained in this Easement, and other good and valuable consideration, the receipt and sufficiency of which the parties acknowledge, the parties agree as follows:

AGREEMENT

1. **The Storm Sewer Property.** The District grants and conveys to the City a non-exclusive, permanent easement, including the easement rights described in this Easement, upon, over, across, and through the following real property in Cass County, North Dakota:

See survey and legal description attached as **Exhibit A.**

The property described above is the "Storm Sewer Property." The District does not warrant fee simple ownership of the Storm Sewer Property and only conveys those rights to the City permitted under North Dakota law that are consistent with the District's rights in the Storm Sewer Property.

2. **Easement Rights.** Under this Easement, the District grants to the City and the City's officers, employees, agents, representatives, consultants, and contractors a permanent and perpetual easement upon, over, in, under, across, and through the Storm Sewer Property for the following purposes: installing, constructing, inspecting, maintaining, reconstructing, altering, repairing, replacing, operating, improving, modifying, and removing the Storm Sewer Infrastructure; excavating, piling, storing, depositing, spoiling, spreading, and removing excavated dirt, soil, clay, silt, or other materials; moving, storing, and removing equipment, materials, and supplies; removing trees, underbrush, obstructions, and any other vegetation, structures, or obstacles from the Storm Sewer Property; and the right to perform any other work necessary and incident to the installation, construction, inspection, maintenance, reconstruction, alteration, repair, replacement, operation, improvement, modification, and removal of the Storm Sewer Infrastructure, together with all necessary and reasonable rights of ingress and egress to and from the Storm Sewer Property. The City is solely responsible for the installation, construction, inspection, maintenance, reconstruction, alteration, repair, replacement, operation, improvement, modification, and removal of the Storm Sewer Infrastructure at the City's sole cost.

3. **Drainage Priority and Use.** The parties understand and agree that Drain 40 is a public facility that provides drainage benefits and other important public benefits to Cass County and its residents, including the City and residents of the City, and further agree the District's use of Drain 40, including the Storm Sewer Property, as a drainage facility takes priority over any other use of the Storm Sewer Property, including the City's use of the Storm Sewer Property for the Storm Sewer Infrastructure.

4. **No Unreasonable Interference.** The District will not unreasonably interfere with the City's easement rights under this Easement. However, the District's priority use of Drain 40 for drainage, flood protection, or other emergency purposes may require and include temporary disruptions or interference with the Storm Sewer Infrastructure or the City's interest in the Storm Sewer Property. The District will use reasonable care to avoid any damages to the Storm Sewer Infrastructure and associated appurtenances; however, the District will not be liable or responsible for any damages resulting from any construction, cleaning, inspection, reconstruction, modification, operation, maintenance, repair, or improvement of Drain 40 by the District, its officers, agents, representatives, employees, consultants, or contractors. In the event any reconstruction, modification, or improvement of Drain 40 requires any modifications to the Storm Sewer Infrastructure or associated appurtenances, the City will modify or relocate the Storm Sewer Infrastructure at the City's expense and, if necessary, the parties will amend this Easement for purposes of redefining the "Storm Sewer Property."

5. **Improvements and Repairs to the Storm Sewer Property.** Any improvements or repairs to the Storm Sewer Property are subject to the following:

- a. Prior to the City's construction, reconstruction, or other improvements of the Storm Sewer Infrastructure, the City must provide plans and specifications to the District, and the District must first give prior written consent to the design of any construction or improvements; the District will not unreasonably withhold consent.

b. The City will operate and maintain the Storm Sewer Infrastructure and related appurtenances at the City's sole cost.

c. The City will obtain the District's written consent prior to commencing any structural repairs, modifications, or improvements to the Storm Sewer Infrastructure on or adjacent to the Storm Sewer Property that require excavation; the District will not unreasonably withhold consent.

d. The City will design and construct any and all improvements and required maintenance on the Storm Sewer Infrastructure in a manner that ensures adequate drainage of the Storm Sewer Property, with a finished grade that drains the Storm Sewer Property, and that does not result in ponding in or on Drain 40.

e. With the exception of the Storm Sewer Infrastructure and related appurtenances, the City will not construct any improvements in, upon, under, over, or across any portion of the Storm Sewer Property; the City will not place any fixtures, equipment, or other personal property on any portion of the Storm Sewer Property; the City will not construct or install, or allow construction or installation of, any utility facilities, lines, structures, or associated appurtenances on, over, in, under, through, or across the Storm Sewer Property; the City will not encumber any portion of the Storm Sewer Property; and the City will not otherwise alter any portion of the Storm Sewer Property without prior consent from the District; the District will not unreasonably withhold consent.

f. THIS EASEMENT is made this ____ day of _____, 2022, by the Southeast Cass Water Resource District, a North Dakota political subdivision, with a post office address of 1201 Main Avenue West, West Fargo, North Dakota 58078-1301 (the "District"); and the City of Fargo, a North Dakota municipal corporation, with a post office address of 225 - 4th Street North, Fargo, North Dakota 58102 (the "City").

RECITALS

A. The District owns, operates, and maintains Cass County Drain No. 40 ("Drain 40"), a legal assessment drain; portions of Drain 40 are located within the City's municipal boundaries.

B. Under a separate easement, the District granted the City authority to install storm sewer infrastructure on portions of the District's Drain 40 right of way; in addition, the City has requested an easement to install and maintain an access road across a portion of the District's Drain 40 right of way (the "Access Road") for purposes of accessing the City's storm sewer infrastructure, on property owned by the District.

C. The District has agreed to convey an easement to the City for purposes of the construction, operation, and maintenance of the Access Road, subject to the terms and conditions contained in this Easement.

In consideration of the mutual covenants contained in this Easement, and other good and valuable consideration, the receipt and sufficiency of which the parties acknowledge, the parties agree as follows:

AGREEMENT

1. **The Access Road Property.** The District grants and conveys to the City a non-exclusive, permanent easement, including the easement rights described in this Easement, upon, over, across, and through the following real property in Cass County, North Dakota:

See survey and legal description attached as **Exhibit A**.

The property described above is the "Access Road Property." The District does not warrant fee simple ownership of the Access Road Property and only conveys those rights to the City permitted under North Dakota law that are consistent with the District's rights in the Access Road Property.

2. **Easement Rights.** Under this Easement, the District grants to the City and the City's officers, employees, agents, representatives, consultants, and contractors a permanent and perpetual easement upon, over, in, under, across, and through the Access Road Property for the following purposes: installing, constructing, inspecting, maintaining, reconstructing, altering, repairing, replacing, operating, improving, modifying, and removing the Access Road; excavating, piling, storing, depositing, spoiling, spreading, and removing excavated dirt, soil, clay, silt, or other materials; moving, storing, and removing equipment, materials, and supplies; removing trees, underbrush, obstructions, and any other vegetation, structures, or obstacles from the Access Road Property; and the right to perform any other work necessary and incident to the installation, construction, inspection, maintenance, reconstruction, alteration, repair, replacement, operation, improvement, modification, and removal of the Access Road, together with all necessary and reasonable rights of ingress and egress to and from the Access Road Property. The parties agree the Access Road is not a public street for use by the general public and the City will limit access to the City and the City's officers, employees, agents, representatives, consultants, and contractors. The City is solely responsible for the installation, construction, inspection, maintenance, reconstruction, alteration, repair, replacement, operation, improvement, modification, and removal of the Access Road at the City's sole cost.

3. **Drainage Priority and Use.** The parties understand and agree that Drain 40 is a public facility that provides drainage benefits and other important public benefits to Cass County and its residents, including the City and residents of the City, and further agree the District's use of Drain 40, including the Access Road Property, as a drainage facility takes priority over any other use of the Access Road Property, including the City's use of the Access Road Property for the Access Road.

4. **No Unreasonable Interference.** The District will not unreasonably interfere with the City's easement rights under this Easement. However, the District's priority use of Drain 40 for drainage, flood protection, or other emergency purposes may require and include temporary disruptions or interference with the Access Road or the City's interest in the Access Road Property. The District will use reasonable care to avoid any damages to the Access Road and associated appurtenances; however, the District will not be liable or responsible for any damages resulting from any construction, cleaning, inspection, reconstruction, modification, operation, maintenance, repair, or improvement of Drain 40 by the District, its officers, agents, representatives, employees, consultants, or contractors. In the event any reconstruction, modification, or improvement of Drain 40 requires any modifications to the Access Road or associated appurtenances, the City will modify or relocate the Access Road at the City's expense and, if necessary, the parties will amend this Easement for purposes of redefining the "Access Road Property."

5. **Improvements and Repairs to the Access Road Property.** Any improvements or repairs to the Access Road Property are subject to the following:

a. Prior to the City's construction, reconstruction, or other improvements of the Access Road, the City must provide plans and specifications to the District, and the District must first give prior written consent to the design of any construction or improvements; the District will not unreasonably withhold consent.

b. The City will operate and maintain the Access Road and related appurtenances at the City's sole cost.

c. The City will obtain the District's written consent prior to commencing any structural repairs, modifications, or improvements to the Access Road on or adjacent to the Access Road Property that require excavation; the District will not unreasonably withhold consent.

d. The City will design and construct any and all improvements and required maintenance on the Access Road in a manner that ensures adequate drainage of the Access Road Property, with a finished grade that drains the Access Road Property, and that does not result in ponding in or on Drain 40.

e. With the exception of the Access Road and related appurtenances, the City will not construct any improvements in, upon, under, over, or across any portion of the Access Road Property; the City will not place any fixtures, equipment, or other personal property on any portion of the Access Road Property; the City will not construct or install, or allow construction or installation of, any utility facilities, lines, structures, or associated appurtenances on, over, in, under, through, or across the Access Road Property; the City will not encumber any portion of the Access Road Property; and the City will not otherwise alter any portion of the Access Road Property without prior consent from the District; the District will not unreasonably withhold consent.

f. The City will repair the Access Road Property and will repair or replace any of the District's structures, facilities, right of way, or any other property owned by the District damaged as a result of the City's construction, operation, inspection, maintenance, alteration, repair, replacement, reconstruction, and removal of the Access Road or otherwise damaged as a result of the City's use, access, ingress, and egress granted under this Easement; the City will otherwise repair and return the Access Road Property as nearly as practicable to its original condition following any disturbance or damages, at the City's sole cost.

6. **Term.** The rights granted under this Easement are permanent and will only terminate if necessary to protect the integrity of Drain 40; as necessary to comply with any laws, rules, regulations, requirements, or directives of any applicable federal or state agency with regulatory jurisdiction over Drain 40; or in the event of any default by the City not remedied within a reasonable time. In the event of any termination, the District will record an Affidavit of Termination with the Cass County Recorder's Office, and the City will remove any improvements from Drain 40, at the City's sole cost.

7. **Liability.** The City will be solely responsible for all claims, actions, administrative proceedings, judgments, damages, penalties, fines, costs, liabilities, interests, or losses, including costs, expenses, and attorneys' fees, arising out of or as a result of the construction, inspection, maintenance, operation, alteration, repair, replacement, reconstruction, removal, or use of the Access Road by the City or the City's officers, consultants, contractors, agents, representatives, employees, or other invitees; any entry upon, use of, or access, ingress, and egress upon, over, or across the Access Road Property by the City or the City's officers, consultants, contractors, agents, representatives, employees, or other invitees; or any act, error, or omission of the City or the City's officers, consultants, contractors, agents, representatives, employees, or other invitees, including any failure to perform under this Easement.

8. **Compliance with Laws.** The City, at its own cost, is solely responsible for promptly complying with all present and future laws, ordinances, rules, and regulations, and obtaining all necessary licenses, permits, registrations, and/or approvals, from all applicable federal, state, county, and municipal governments and any other applicable governmental entities or political subdivisions, and their appropriate departments, commissions, boards, and officers, regarding the Access Road or the City's other permissible use, access, ingress, and egress rights upon, over, or across any of the Access Road Property.

9. **Forbearance.** The failure or delay of either party to insist on the timely performance of any of the terms of this Easement, or the waiver of any particular breach of any of the terms of this Easement, at any time, will not be construed as a continuing waiver of those terms or any subsequent breach, and all terms will continue and remain in full force and effect as if no forbearance or waiver had occurred.

The Committee reviewed the accompanying correspondence from Assistant City Engineer, Tom Knakmuhs, regarding final revisions to the 2022 CIP.

There were a number of revisions made throughout the year to the 2022 CIP; projects were added, the size and scope of some projects changed, and some projects that were initially planned were ultimately not bid in 2022. Some projects not bid were still being developed and are expected to be bid in 2023, and some projects did not advance for various reasons.

The following projects should be removed from 2022 CIP:

- **TR-22-A1** (Traffic Signal Maintenance – Citywide) - Combined with SL-22-A1.
- **BN-22-H1** (New Development – Nelson Property) - Developer did not request infrastructure. Uncertain if infrastructure will be requested in 2023.
- **AN-22-A1** (Alley Paving – 9 Ave N to 10 Av N between 2 St & 3 St) - Petitioned by more than 50% of benefiting properties.
- **AN-22-B1** (Alley Paving – 3 Ave N to 4 Ave N between 7 St & 8 St) - Petitioned by more than 50% of benefiting properties.
- **UR-22-A1** (Water Service Lowering and/or Replacement) - Project funded with Water Utility Funds and due to other projects coming in over initial estimate it was decided to not advance this project.
- **MS-22-A0** (Public Information Coordinator Services) - Engineering Department did not require additional assistance in 2022.

The following projects should be moved from 2022 CIP to 2023 CIP:

- **PR-22-B1** (Concrete Spot Repairs – Citywide) – Project still being developed.
- **DR-21-A1** (Drainage Repairs – 64th Ave S Outfall) – Staff working to secure necessary easements.
- **RR-19-A1** (Railroad Quiet Zone – 7 Ave N & 16 St) – Engineering firm hired for the development of this project. Plans nearly complete and have been submitted to BNSF for approval. Staff working to acquire necessary easements/right of way for this project.
- **BN-22-E1** (New Development – Duda Property) – City is working on an annexation plat and the developer is working to plat their land. Infrastructure request is anticipated in 2023.
- **SN-22-A1** (Sidewalks – 25th St S from 64th Ave to 73rd Ave) – Project still being developed.
- **QR-22-A1** (North Broadway Bridge Demolition) – Project being led by Clay County and will be bid in January 2023.

On a motion by Tim Mahoney, seconded by Steve Sprague, the Committee voted to recommend approval of the CIP revisions.

There were a number of revisions made throughout the year to the 2022 CIP; Projects were added, the size and scope of some projects changed, and some projects that were initially planned were ultimately not bid in 2022. Some of the projects that were not bid are still being developed and are expected to be bid in 2023, and some projects did not advance for various reasons.

The following projects should be from the 2022 CIP for the reasons listed below:

TR-22-A1 (Traffic Signal Maintenance - Citywide):

This project was combined with SL-22-A1. This project should be removed from the 2022 CIP.

PWPEC
2022 CIP Revisions
Page 2

BN-22-H1 (New Development – Nelson Property):

This project was included in the 2022 CIP with the anticipation that the developer would be requesting infrastructure in 2022. The developer did not request infrastructure and it is uncertain whether or not infrastructure will be requested in 2023. This project should be removed from the 2022 CIP.

AN-22-A1 (Alley Paving – 9 Ave N to 10 Ave N between 2 St N and 3 St N):

This project was petitioned by more than 50% of the benefiting properties. The Engineering Department designed and bid the project. The Engineer's Estimate was \$73,095 and the low bid was \$77,890. Unfortunately the project received protests from more than 50% of the benefiting properties and bids were rejected. This project should be removed from the 2022 CIP.

AN-22-B1 (Alley Paving – 3 Ave N to 4 Ave N between 7 St N and 8 St N):

This project was petitioned by more than 50% of the benefiting properties. This alley is adjacent to a redevelopment project and adjacent to a reconstruction project that was completed in 2022. Because of those adjacent projects, the Engineering Department thought it would be best to wait until 2023 to advance this project. This project should be removed from the 2022 CIP and was already included in the 2023 CIP.

UR-22-A1 (Water Service Lowering and/or lead replacement):

This project is funded with Water Utility Funds and due to other projects coming in over initial estimate it was decided to not advance this project. This project should be removed from the 2022 CIP.

MS-22-A0 (Public Information Coordinator Services):

This project was included in the 2022 CIP in the event the city needed additional assistance communicating with the public during any of our projects. The Engineering Department did not require additional assistance in 2022. This project should be removed from the 2022 CIP.

The following projects should be moved from the 2022 CIP to the 2023 CIP for the reasons listed below:

PR-22-B1 (Concrete Spot Repairs City Wide):

This project is still being developed and should be moved from the 2022 CIP to the 2023 CIP.

DR-21-A1 (Drainage Repairs – 64th Ave S outfall):

Staff is working to secure the necessary easements for this project. This project should be moved from the 2022 CIP to the 2023 CIP.

RR-19-A1 (Railroad Quiet Zone – 7th Ave N and 16th St N):

The Engineering Department hired an engineering firm for the development of this project. The plans are nearly complete and have been submitted to BNSF for approval. The Engineering Department is also working to acquire the necessary easements/right-of-way for this project. This project should be moved from the 2022 CIP to the 2023 CIP.

BN-22-E1 (New Development – Duda Property):

This project was included in the 2022 CIP with the anticipation that the developer would be requesting infrastructure in 2022. The city is working on an annexation plat and the developer is working to plat their land. We anticipate an infrastructure request in 2023. This project should be moved from the 2022 CIP to the 2023 CIP.

SN-22-A1 (Sidewalks: 25th St S from 64th Ave S to 73rd Ave S):

This project is still being developed and should be moved from the 2022 CIP to the 2023 CIP.

QR-22-A1 (North Broadway Bridge Demolition):

This project is being led by Clay County and will be bid in January 2023. This project should be moved from the 2022 CIP to the 2023 CIP.

Below is a summary of the 2022 CIP taking into account changes in project scope, added projects, and removal of projects as previously mentioned in this memo:

New Development Projects	\$45,482,941	\$1,022,414	\$11,728,368	\$58,233,723	\$2,758,314	\$0	\$51,857,541	\$3,617,868
Alley Paving Projects	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0
Sidewalk Projects	\$1,745,960	\$0	\$440,675	\$2,186,635	\$385,000	\$0	\$1,147,944	\$870,660
Miscellaneous Projects	\$157,900	\$0	\$41,054	\$198,954	\$0	\$0	\$0	\$198,954
Total 2022 CIP =	\$101,700,587	\$7,380,716	\$21,907,489	\$130,988,792	\$11,628,256	\$20,476,413	\$69,243,730	\$29,640,393

A more comprehensive summary can be found in the attachments to this memo, but I think it is worth highlighting a couple of differences between the initially approved CIP and the end-of-year CIP.

- As we discussed previously this year, the project cost for 32nd Ave S from 33rd St S to 22 St S (the only project listed under the category “Federal Aid Projects”) ended up being significantly higher than initially anticipated. This was due to the complexity of the project and construction inflation/material shortages.
 - The total project cost increased from \$16M to \$25.7M
 - City funds increased from \$2.6M to \$9.8M
 - Special assessments did not increase
- The “New Development Projects” category was significantly larger than initially anticipated.
 - Total costs were initially anticipated to be approximately \$21.1M
 - Actual total costs ended up being approximately \$58.2M
- The total 2022 CIP increased from approximately \$91.2M to \$131M.
 - This increase will generate \$3.7M more in engineering and admin fees than what was initially anticipated. This increase in revenue goes to the general fund.

Memorandum

To: Board of City Commissioners
From: Bekki Majerus, Director of Facilities Management
Date: January 9, 2023
Re: Master Service Agreements for Electrical Services (RFP23014)

Historically, City of Fargo divisions have operated independently when sending out Requests for Proposals and entering into agreements for facilities services. This results in having multiple RFPs and Agreements or Contracts with the same contractor that are very similar in nature, but limited in scope by building or division.

In an effort to create efficiencies in purchasing, Facilities Management worked with the Finance Department to map out a process to pre-qualify vendors for common facilities services used across the entire City of Fargo organization. The process includes publishing a public Request for Qualifications, review by a selection committee to determine qualification against the published criteria, and entering into a Master Service Agreement with the approved vendor(s) which will allow all Divisions to utilize the vendor(s). This process is in line with the Purchasing Policy. The Master Service Agreement has been reviewed by the City Attorney.

Facilities Management published a Request for Qualifications (RFQ) on November 9, 2022. This RFQ was specifically for Electrical Services. Submissions were opened and reviewed on November 21, 2022. Three Electrical Contractors were pre-qualified through this process. Those contractors are:

- JDP Electric
- Parsons Electric
- Sun Electric Inc

The Agreements do not guarantee any work with the City of Fargo, nor does this process exclude other electrical contractors from future work with the City of Fargo.

Facilities Management is requesting the Commission's approval of the Master Service Agreements with the three vendors. The Agreements are attached for your review.

Recommended Action: Approve Master Services Agreements with JDP Electric, Parsons Electric and Sun Electric Inc.

**Master Services Agreement
Between
City of Fargo
and JDP Electric**

This Master Services Agreement (the "Agreement," which includes all attached schedules), effective January 1, 2023 ("Effective Date"), is entered into by and between JDP Electric (the "Vendor"), having a principal place of business at 803 28th Street South, Fargo, North Dakota 58103, and City of Fargo (the "City"), a North Dakota municipal corporation, having a principal place of business at 225 4th Street North, Fargo, North Dakota 58102 (each a "Party" and collectively, the "Parties").

Any services provided by the Vendor under this agreement are referred to as "Services."

Except as otherwise provided, undisputed invoices shall be payable within 30 calendar days after the receipt of the invoice. Invoices shall be e-mailed to FinanceAPAR@FargoND.gov.

6. OWNERSHIP OF DOCUMENTS

Vendor's work product reimbursed by the City, including all data, documents, results, ideas, developments and inventions that Vendor conceives or uses during the course of its performance under this Agreement shall be the City's property, unless otherwise agreed.

7. INDEPENDENT CONTRACTOR

The relationship between the Parties shall, within the context of this Agreement, be that of an independent contractor and nothing in this Agreement should be construed to create a partnership, joint venture, or employer-employee relationship. The Vendor shall, at all times during the term of this Agreement, perform the duties and responsibilities herein. Neither Party is an agent of the other Party and is not authorized to make any representation contract, or contract commitment on behalf of the other Party.

"Conflict of Interest" means any activity, interest, or relationship of Vendor or any of its officers, directors, affiliates, or principals that may compromise that person's ability to render impartial assistance or advice to the City or that may give rise to legal or reputational concerns or any competitive advantage unfair to the City.

9. CONFIDENTIALITY

The Vendor agrees to not, directly or indirectly, disclose, make known, divulge, publish, or communicate any confidential information to any person, firm, or corporation without consent unless that disclosure is authorized under North Dakota law.

10. INSURANCE

a. Vendor will obtain and maintain the following insurance coverage, naming the City of Fargo as an additional insured, via commercial insurance:

v. Limits for Commercial General Liability and Automobile Liability may be provided through a combination of primary and umbrella coverage; and

b. Vendor shall provide the City with evidence of the foregoing coverage before providing

any services.

c. Vendor shall notify the City 30 days prior to cancellation or reduction in limits of any insurance required hereunder.

11. INDEMNIFICATION

Consultant agrees to indemnify and hold harmless the City, its officers, employees, insurers, and self-insurance pool, from and against all liability, claims, and demands, on account of injury, loss, or damage, including without limitation claims arising from bodily injury, personal injury, sickness, disease, death, property loss or damage, or any other loss of any kind whatsoever, which arise out of or are in any manner connected with this Agreement, if such injury, loss, or damage is caused in whole or in part by, or is claimed to be caused in whole or in part by, the act, omission, error, consultant error, mistake, negligence, or other fault of the Vendor, any subcontractor of the Vendor, or any officer, employee, representative, or agent of the Consultant or of any subcontractor of the Consultant, or which arises out of any workmen's compensation claim of any employee of the Consultant or of any employee of any subcontractor of the Consultant. This SLA applies separately to each Customer using the Platform Services. Any amendments or revisions to this SLA will be in writing and agreed to by both parties.

Bonfire is committed to providing reliable high-performance managed services to our customers. Our SLA has been designed to ensure the highest quality service and to provide compensation to the Customer in the event of failure to achieve the specified metrics herein.

1. SERVICE COMMITMENT

- a. **Service Availability.** Bonfire will use commercially reasonable efforts to make the Platform Services available with a Monthly Uptime Percentage (defined below) of at least 99.5% during any monthly billing period. In the event Bonfire does not meet the Service Commitment, you will be eligible to receive a Service Credit as described below.
- b. **Data Redundancy.** Bonfire will use commercially reasonable efforts to provide at a minimum one (1) redundant data store for Customer Data, updated on a daily basis, during the period of the Term.

We will calculate the Service Unavailable for each Customer as a percentage for each fifteen-minute period in the monthly billing cycle. The calculation of the number of Server Outages will not include outages that arise directly or indirectly as a result of any of the SLA Exclusions (as defined below).
- b. **Monthly Uptime Percentage.** The "Monthly Uptime Percentage" is calculated by subtracting from 100% the average of the Service Outage from each fifteen-minute

A Service Credit will be applicable and issued only if the credit amount for the applicable monthly billing cycle is greater than one dollar (\$1 Canadian Dollar). Service Credits may not be transferred or applied to any other Customer.

4. **SERVICE CREDIT PROCEDURE.** To receive a Service Credit, you must submit a request by sending an e-mail message to support@gobonfire.com. To be eligible, the credit request must (i) include your account URL in the subject of the e-mail message; (ii) include, in the body of the e-mail, the dates and times of each incident of each outage; and (iii) be received by us within ten (10) business days after the end of the billing cycle in which the errors occurred. Your failure to provide the request and other information as required above will disqualify you from receiving a Service Credit.

The Human Resources Team contracts with Eide Bailly to conduct our pre-employment background checks during the conditional offer phase of pre-employment. The agreement does not impact the budget as the cost of background checks is already included in the Human Resources budget.

The agreement has been reviewed by the City Attorney.

Suggested Motion:

Approve the Eide Bailly End-User Agreement

THIS END-USER AGREEMENT ("Agreement") is made and entered into by and between Eide Bailly (its parent, subsidiaries, predecessors, successors, affiliates, directors, officers, fiduciaries, insurers, employees and agents jointly, "Eide Bailly") and End-User (its parent, subsidiaries, predecessors, successors, affiliates, directors, officers, fiduciaries, insurers, employees and agents jointly "End-User"). This Agreement shall be effective on the date of last signature below (the "Effective Date").

General

End-User is engaged in the business of municipal government, Fargo Police Department and FargoDome. End-User represents that it is a legal entity in good standing in its state of formation as well as all jurisdictions in which it conducts business, with a legitimate permissible purpose for requesting the services and information products offered by Eide Bailly.

Pursuant to the terms of this Agreement, Eide Bailly strives to deliver accurate and timely information products ("consumer reports" and/or "investigative consumer reports" (collectively "consumer reports")) to assist End-User in making intelligent and informed decisions for a permissible purpose under applicable law. To this end, Eide Bailly assembles information from a variety of sources, including databases maintained by consumer reporting agencies containing information from public records, other information repositories and third-party researchers. End-User understands that these information sources and resources are not maintained by Eide Bailly. Therefore, Eide Bailly cannot be a guarantor that the information provided from these sources is absolutely accurate or current. Nevertheless, Eide Bailly has in place reasonable procedures designed to respond promptly to claims of incorrect or inaccurate information in accordance with applicable law.

Eide Bailly agrees that it will provide background screening services to End-User pursuant to the Statement of Work agreed to by the parties which may be modified or updated from time to time and which is wholly incorporated herein.

End-User's Certification of Fair Credit Reporting Act (FCRA) Permissible Purpose(s)

End-User hereby certifies that, each time a consumer report is requested, all of its orders from Eide Bailly shall be made, and the resulting consumer reports shall be used, for the following Fair Credit Reporting Act, 15 U.S.C. § 1681 *et seq.* ("FCRA") permissible purposes only: for employment purposes under Section 604(a)(3)(B), including contractors, volunteers or evaluating a consumer for employment, promotion, reassignment, retention as an employee, where the consumer has given prior written permission.

End-User's Certification of Legal Compliance

End-User certifies to Eide Bailly that the consumer reports it receives will not be used in violation of any applicable federal, state or local laws, including, but not limited to the FCRA and Title VII of the Civil Rights Act of 1964. End-User accepts full responsibility for complying with all such laws and for using the consumer reports it receives from Eide Bailly in a legally acceptable fashion. To that end, End-User agrees to comply with and provide all statutorily required notices in Section 615 of the FCRA or other state laws when using consumer reports. End-User further accepts full responsibility for any and all consequences of use and/or dissemination of those consumer reports. End-User further agrees that each consumer report will only be used for a one-time use.

End-User agrees to have reasonable procedures for the fair and equitable use of consumer reports and to secure the confidentiality of private information. End-User agrees to take precautionary measures to protect the security and dissemination of all consumer report or investigative consumer report information including, for example, restricting terminal access, utilizing passwords to restrict access to terminal devices, and securing access to, dissemination and destruction of electronic and hard copy reports. End User agrees to abide by **Addendum A** attached hereto which is incorporated into and is part of this Agreement.

As a condition of entering into this Agreement, End-User certifies that it will comply with all applicable local, state and federal laws including but not limited to the FCRA and state law equivalents. Eide Bailly will only keep information it provides to End-User for the lesser of two (2) years or as required by applicable law.

End-User certifies that it will retain information it receives from Eide Bailly in accordance with applicable law, and will make such information available to Eide Bailly upon request. In addition, End-User agrees to abide by all state and local "ban the box" laws and certifies that it will not conduct a background check until after a conditional offer of employment has been provided. End-Users seeking credit information certify to Eide Bailly that it has provided all disclosures required by applicable federal, state or local laws, regulations and ordinances to the consumer in connection with such requests and must provide information described in and sign **Addendum B** before Eide Bailly can provide credit information to End-User. **Addendum B** is incorporated into and is part of this Agreement, if applicable. End-User acknowledges and agrees to notify its employees that End-User can access credit information only for the permissible purposes listed in the FCRA.

RE: Consultant Contract for Growth Plan (RFP22106)

Staff is requesting approval of the attached contract with *czb, LLC* for professional consulting services to lead the development of a Growth Plan. The contract has a not to exceed budget of \$776,000 that has been allocated from the Planning Department's planning services budget. This project will involve many city departments and thus staff is currently in conversations about the possibility of participating in a small portion of cost sharing with them.

The project is anticipated to be completed by spring of 2024, within approximately fourteen months once work is underway.

Background

The last comprehensive Growth Plan was adopted in 2007 and in the last 15 years the City has changed. A Request for Proposals (RFP) was posted in October with eight planning consultant teams who responded to the open call.

A RFP review group was formed comprised of: Jason Benson, Cass County Engineer; Michael Redlinger, Interim City Administrator; Nathan Boerboom and Jeremy Gordon, Division Engineers; Nicole Crutchfield, Director of Planning and Development, Mark Williams, Assistant Director and Kim Citrowske, Planning Coordinator to read through and score proposals, participate in a formal interview process and select the preferred consultant team, *czb, LLC*.

The *czb* team proposal was robust and forward thinking in its approach to master plan for growth which is anticipated to span several years to

- 1) Study our current growth patterns, engage community and stakeholders,
- 2) Understand our community values and vision to move forward and finally
- 3) Outline the growth management plan and decision making framework that will guide us to a Land Development Code (LDC) re-write that codifies the community's development values and vision.

The *czb, LLC* proposal included a sub-consultant code writer which no other consultant team included. The RFP vision was to set-the-stage for an LDC re-write and this consultant team's proposal jump-starts the process. This vigor in approach and consultant time dedicated to our project does exceed the initial budget, but staff envision an overall efficiency in time and budget with the robust proposal and initial code writing component totaling \$776,000 and an anticipated timeline for completion in 2024.

The Finance Committee has reviewed and is supportive of the consultant and financing plan.

Attached please find the consulting agreement with *czb, LLC* and associated exhibits for the development of a Growth Plan.

Recommendation

Approve the consulting agreement with *czb, LLC* for professional consulting services for the development of the Growth Plan, pending legal review by the City Attorney's Office.

Citywide Master Plan for Growth Work Description

[see attached]

Proposed Work Program

Our approach is grounded in our philosophy that long-range growth planning must be values-based, rigorously prioritized, and set clear direction while providing implementation flexibility. To get to the heart of these three cornerstones of good planning, we propose to design and lead a three-phase, 14-month process that is streamlined and sequential, with phases to confirm or modify a values-based vision for Fargo's future, to select a preferred pathway to growth, and to distill the preferred path into guidance for action.

Furthermore, it is our experience that the core of effective public participation is a representative steering committee that can both reflect the public in its group conversations but also act as a conduit back to the community. We are pleased, therefore, to see a project steering committee described in the RFP, and include it in our description of proposed engagement activities.

PHASE 1 Our Current Path and Vision for Growth

Through a review of existing plans and policies, along with analysis of demographic, economic, and real estate trends, we will define a "current path" scenario for growth, including the vision, values, and assumptions underpinning it. Working with community stakeholders, we will assess the costs and benefits of this current path and determine the elements that the community wants to maintain and the elements it wants to alter or discard.

At the end of this phase, it will be clear where Fargo will be headed if it does nothing differently. It will also be clear which parts of the City's existing vision for growth can be confirmed and maintained, and which parts need adjustment.

PHASE 2 Our Chosen Path Forward

Based on reactions to the "current path" scenario for growth in Phase 1, Phase 2 will present alternative paths. These scenarios will be aligned with the general direction defined at the conclusion of Phase 1, but each will have recognizable distinctions (related to where and how growth happens, and the associated impacts) to help stakeholders further define Fargo's vision for future growth.

At the end of this phase, a preferred path forward will be defined and ratified to serve as the basis for long-range planning.

PHASE 3 Our Growth Management Plan and Decision-Making Framework

With a preferred path for growth in place, Phase 3 will focus on the translation of that path into a decision-making framework and action plan that will assist the community in making consistent decisions that reflect and reinforce Fargo's vision for growth.

Towards the end of this phase, the City will be in a good position to begin updating its Land Development Code, harmonize existing plans, and undertake other steps toward activation of the updated vision for growth.

Engagement Activities

Throughout the three phases, the project steering committee will be at the center of a web of public engagement that will include open houses, surveys, "kitchen table conversations," and stakeholder interviews. These different means of engagement will play vital educational roles while helping to define a vision for growth and the preferred path to growth.

Proposed Work Program - Outcomes, Deliverables and Elements

PRE-PROJECT ACTIVITIES

If selected, we will work with the City right away to finalize a scope and process that delivers a Citywide Master Plan for Growth in a timely manner. Topics to address in this preliminary work will include:

- Project management issues such as points of contact and data sharing.
- Establishment of routine project management calls on a biweekly basis.
- Identification and composition of a technical advisory committee of staff from the City of Fargo and relevant partner agencies; beginning of monthly technical advisory touch points, with participation tied to active tasks and project needs.
- A finalized project timeline with milestones spelled out, a final public engagement plan, specific meeting dates placed on the calendar, and consultant travel requirements identified.

PHASE 1 Our Current Path and Vision for Growth

PHASE 1: Our Current Path and Vision for Growth

During this first phase, czb and its team will rapidly analyze the planning and policy context of growth in Fargo, as well as demographic, economic, and other factors that will influence future growth. This will contribute to the development of a “current path” or status quo scenario to help stakeholders understand the expected outcomes and impacts of doing nothing differently, and to identify specific components of the current path that are worth keeping or that need to be modified.

In particular, this phase of work will include the following tasks:

1.1: Analyze existing plans, policies, and infrastructure

- Review the existing comprehensive plan and all area plans for vision, direction, and decision-making guidance; identify discernable values and planning principles expressed by these documents and any conflicting visions.
- Review all existing relevant policies and ordinances that relate to growth.
- Review all long-range infrastructure plans, service plans, and capital improvement plans (CIPs).
- Conduct a capital facilities analysis and infrastructure review to determine deficiencies and capacity, inclusive of water, sewer, stormwater, transportation, electric, and other utilities, with potential to include public safety facilities, public works facilities, and other types of facilities as necessary.

1.2: Analyze demographic and economic trends that will influence growth

- Perform demographic, economic, and real estate market analysis inclusive of demographic trends and projections, employment trends and conditions, and real estate market trends by major land use categories such as single- and multi-family housing, retail, office, industrial, and hospitality.

1.3: Develop a “current path” scenario

- Based on findings from tasks 1.1 and 1.2, develop a “current path” scenario with UrbanFootprint that describes how and where Fargo might grow over the next 20 years, the impacts of these growth patterns (fiscal, land use, and environmental), and the decision-making variables that will influence this path. Use understanding of infrastructure capacity and conditions from task 1.1, as well as well-grounded assumptions about the path and form of future development, to help determine fiscal, land use, and transportation impacts.

1.4: Assess the current path scenario

- Present the current path scenario and identify what the Fargo community likes and does not like about its current path and where that path is taking the region.
- Pinpoint what the community wants to change about the current path, and how those changes might translate into adjustments to stated values, planning principles, and priorities of a vision for growth

1.5: Confirm a vision for growth

- Using input from public reactions to the current path scenario, define and confirm a clear vision for growth, including the values, planning principles, and priorities that should shape future planning and decision-making.

Deliverables

Through the performance of these tasks, czb and its team will deliver the following discrete deliverables during Phase 1:

- "Summary of Direction" from existing planning documents and policies
- Capital Facilities Analysis
- Current Path Scenario, complete with assumptions and estimated impacts
- Confirmed Vision for Growth

PHASE 2 Our Chosen Path Forward

**PHASE 2: Our Chosen Path Forward**

During the second phase, czb and its team will craft between two and four alternative scenarios for growth that will represent meaningful deviations from the current path scenario presented in Phase 1. Each of the alternative scenarios will align with the Confirmed Vision for Growth and will be presented graphically, narratively, and numerically in order to aid stakeholders in understanding the relative outcomes and impacts associated with each scenario—and how they differ from the current path. Careful attention to communication design will ensure that the alternative paths are well understood by stakeholders and that the preferred path represents an informed and deliberate choice by the community.

In particular, this phase of work will include the following tasks:

2.1: Define and analyze alternative growth scenarios

- Based on the confirmed vision for growth from Phase 1, as well as what the community embraced or rejected about the current path scenario, define a set of alternative growth scenarios that align with the vision for growth in distinct ways. Use UrbanFootprint to build each scenario and lay the groundwork for impact analysis.
- Identify the relative impacts (fiscal, economic, environmental, etc.) of these alternative growth scenarios, including a broad understanding of costs, benefits, and how they differ from the current path.
- Use demographic and economic trends analysis, capital facilities analysis, and review of infrastructure from Phase 1 to inform impact and cost/benefit modeling of alternative scenarios.

2.2: Present the growth scenarios for public vetting and identify preferred path

- Exhibit the growth scenarios in ways that clearly describe the relative impacts of different paths and the tradeoffs required to achieve each growth scenario.

PHASE 3 Our Growth Management Plan and Decision- Making Framework

2.3: Ratify a well-defined preferred growth scenario

- Use public input from presentations of alternative growth scenarios to define the preferred growth scenario, which may represent a hybrid of the presented scenarios.
- Perform further analysis to flesh out the impacts and implications of the preferred growth scenario and its alignment with the confirmed vision for growth; define the outcomes that will describe progress along this preferred path.

Deliverables

Through the performance of these tasks, czb and its team will deliver the following discrete deliverables during Phase 2:

- Outline of Proposed Alternative Growth Scenarios to serve as the basis for development of detailed scenarios
- Alternative Growth Scenarios Presentation
- Preferred Growth Scenario Presentation

PHASE 3: Our Growth Management Plan and Decision-Making Framework

The final phase will produce the roadmap the Fargo community will need to steer itself toward the desired outcomes and impacts described by the preferred growth scenario. It will translate the confirmed vision for growth and preferred growth scenario into a flexible and actionable decision-making framework to support planning, policy design, and investments over the coming decade.

In particular, this phase of work will include the following tasks:

Task 3.1: Define Fargo's decision-making framework for growth

- Present a framework anchored to a vision for growth that is supported by specific values, planning principles, and priorities—all distilled from work completed in Phase 1.

Task 3.2: Create conceptual diagrams of preferred growth scenario

- Generate graphics—including maps and potentially transects—that convey the direction and character of growth and redevelopment under the preferred growth scenario; fine-tune the diagrams as communications tools to build public understanding while aiding the work of elected officials and staff.

Task 3.3: Produce future land use maps

- Convey desired land use patterns of the preferred growth scenario, citywide, through a series of future land use maps that are ready for use during the LDC updating process.

Task 3.4: Provide guidance on LDC updates

- Translate the preferred vision for growth into broad guidelines for the LDC updating process to accelerate the work; take findings from Fargo's LDC Diagnostic into account.

Task 3.5: Produce reconciliation analysis of existing plans/CIPs

- Summarize existing policies and plans and their level of conformity or fit with the preferred growth scenario. Provide recommendations on how to bolster alignment, where necessary.

- Develop capital investment recommendations to ensure that CIPs are a reflection of the preferred growth scenario.

Task 3.6: Develop consistency guidelines for future planning

- To ensure that future policies, area plans, service plans, and CIPs align with the preferred growth scenario, outline a set of guidelines for future planning processes to follow so that scopes of work and outcomes have a high probability of reinforcing Fargo's vision for growth.

Task 3.7: Finalize and Adopt Growth Management Plan

- Summarize all recommended implementation steps into a Growth Management Action Plan for the coming 2, 5, and 10 years.
- Advise and assist with the process of Growth Plan adoption through presentations and discussions as necessary.

Deliverables

Through the performance of these tasks, czb and its team will deliver the following discrete deliverables by the end of Phase 3:

- Decision-making framework
- Library of growth diagrams
- Future land use maps
- LDC integration guidance
- Existing plan reconciliation recommendations
- Future plan consistency guidelines
- Growth Management Action Plan

Proposed Work Program - Engagement Activities

In our experience the core of effective public participation is a representative steering committee that can both reflect the public in its group conversations but also act as a conduit back to the community. The right steering committee acts as a "force multiplier," making public outreach efforts more effective by penetrating a community and its different neighborhoods and interest groups with word-of-mouth advertising for surveys, public events, and other opportunities to exchange views. We found this to be true during the Core Neighborhoods Master Plan, when our team successfully managed multiple layers of steering committees.

Beyond the committee, we have found the following activities to be effective when used together as a "mixed-method" approach to engagement:

Presentations

Routine presentations throughout the planning process to the Planning Commission, City Commission, Public Works Project Evaluation Committee, and other relevant agencies will ensure that elected and appointed officials remain well-informed and are not surprised by the deliverables that emerge during Phase 3—and that they have opportunities to communicate their concerns. Such presentations are also important touchpoints with highly engaged members of the public who attend these meetings.

Kitchen Table Conversations

We dubbed these small group discussions as Kitchen Table Conversations (KTC) because they were originally designed to take place inside committee members' homes with other residents of the community, although we adapted them for a virtual environment in 2020. Our team designs hypothetical scenarios requiring deep thought and discussion between small groups of residents, and challenging existing views on issues in the community. The scenarios range from the very likely to the farfetched, and ask participants to play the role of a Planning Commissioner or a member of the City Commission who must decide on some invented proposal. What if X was proposed and was in front of you for a decision? What would you do? What reasoning would you use? They are an effective way to quickly and deeply engage 50-100 residents each time the committee completes a round.

Stakeholder Interviews

We make sure to connect with key stakeholders in the community, including elected officials, civic leaders, the faith community, developers, neighborhood advocates, and others. We work with clients to develop an interview protocol and then conduct interviews with individuals and small groups. The findings from these interviews help us identify key issues, conflicts, challenges and opportunities.

Open House "Road Shows"

One-off opportunities for public input are little more than box checking exercises. Instead, we have often had great success by doing multiple events across a variety of sites in a few days. This allows us to meet residents where they are and gather substantial feedback across a large area in a short amount of time. On top of the face-to-face options, we have also developed an online version which allows much more time for residents to browse information and provide written comments at a time that works for them (even if that's the middle of the night) while also offering scheduled video conference opportunities to talk directly to our team.

Online Surveys

We have used online surveys for years. They are easy to construct, and we have learned over time how to ask the most important questions in the shortest amount of time so that residents can contribute quickly and not miss time out of their busy lives. Surveys are always designed in collaboration with the steering committee and staff.
